

STREET SWARVE

Sporting a khaki longline bomber jacket from "Zara". This puffier bomber gives off a cool slouch look, however it can be substituted for a "Maniere De Voir" longline bomber (small image to right) for a slim streamline effect.

Sunglasses (Topman)
Collarless Shirt (Topman)
Necklace (Topman)

Perfect jeans to be worn with this outfit would be skinny fit, to maintain the outfit's upmarket and upbeat look. Colour preference would be **BLACK**, and take it as the more rips in the more hip it gets. But I'll leave that up to you.

This week on Fiorini's style corner I will be breaking down and putting forward an outfit, which I recently put together for the talented AfroHop artist, Timbo STP. There are alternative options to be able to achieve this look and I have also left much to your own discretion, in terms of shoes and jeans choices you could wear to make you stand out. Hope it helps you with a bit of guidance on what's currently hot on the street.
